

# Designing chairs to fit every body

Why Advance Seating Designs are the UK's leading specialists in modified seating

## Providing bespoke office chairs

We offer a number of bespoke adaptations to our renowned Opera chair range. They are designed for users who, due to their clinical needs, require modified seating at work or at home.

## Ensuring comfort for every body

We passionately believe in pain prevention, so we modify our seats to suit each individual user and their particular needs. Our POSE fitting service ensures maximum comfort and ease of use, whatever the clinical condition.

## Ongoing product innovation

We are true market leaders with a portfolio of innovative and unique products – ranging from the motorised eMove chair, to our MFS (modular fitting service) and split seat. Some of our adaptations are listed on the right – call us on 020 8578 4308 for free advice or to discuss the needs of a particular user.

## Who are ASD?

### The bespoke seating specialists

Advance Seating Designs is the UK's leading manufacturer of high-end ergonomic and adapted office seating. With over 20 years experience dealing with the most complex customer needs, we have built a reputation for providing the ultimate in comfort.

Founded in 1989 by Alan and Lesley Glaser (both graduate physiologists) and backed by a highly respected and professional team, our philosophy is simple: sitting correctly matters – for *everyone*. We believe every body should sit in a chair that fits them.

## Seat adaptations

### Modified for work or home

The modular versatility of the Opera range allows our assessment team to create bespoke chairs for those with disabilities or clinical conditions. Contact us and we'll guide you through these beneficial product combinations:

- Bespoke upholstery. Memory foam option using the Modular Fitting System (MFS)
- Massage and heat pad options
- Split seats – for relieving pressure after hip replacements or for amputees
- Movement swivel & rotation locks with failsafe design – for stabilisation
- Metalwork additions – leg support cradles
- Specialist arms and attachments – mouse and keyboard plates

Modified seat and arm upholstery on an Opera 62H model chair

## Personal Office Seating Evaluation

Complete our POSE form online at [asd.co.uk](http://asd.co.uk)

**FREE**  
on-site evaluations for best seating fit\*

**FREE 14 day trial**  
following an assessment

**5 year warranty**  
For normal 8hr-a-day usage

## The unique ASD service

### No-one else offers so much flexibility

With over 20 years accumulated knowledge, ASD are recognised as the experts in specialist seating. Always happy to help with advice on our product range, we offer comprehensive support to assessors, H&S managers and occupational therapists – in fact, anyone looking for a chair to solve a postural problem.

With less complicated conditions you don't need to try a number of chairs because our online POSE service (Personal Office Seating Evaluation) results in a chair fitted precisely to the user. We pride ourselves on getting it right first time.

We also provide free training sessions for medical professionals who wish to familiarise themselves with the extensive ASD product range.

\*Site visit is mandatory for our eMove chair and MFS fitting service
